2. For a room to house <sup>a</sup> 2 rectifiers, 13'9" x 20'10" x 9'7", it was estimated that it would cost approximately \$2500. (ext. or , who work in shop offered to get a quote for us from this company based on our specifications, since he is paying the company a visit the first part of next week. I asked that he call you immediately upon his return in case you wish to act sooner than the first week in September.

STATINTL

STATINTL

3. stated that there would be no problem in getting delivery of the rooms prior to 15 October, if the order was placed the first week in September. The price quoted does not include installation of the room. However, the room comes in panels, is light, and easily bolted together. It is planned to erect the floor, place the equipment on the floor, and build the room around the equipment.
